PLANS FOR THE MADISON SQUARE BANK.

It was expected that there would be a meeting rday of the stockholders of the Madison Square Bank, to act upon the proposition of C. C. Shayne, to assess the individual stockholders of the bank to an amount sufficient to pay up the depositors and start the bank again. The meeting was not held, owing to the absence from town of some of the principal stockholders, and because further plans now are on foot by which all the stockholders and depositors can be paid, and the bank's affairs The president of the bank has pledged \$300,000 in money, which can be used at once, and ick of this there are \$100,000 more pledged, which the president is not altogether certain will be paid. that is needed to put the bank upon a solid ting is \$50,000, and the prospects are that this punt will be subscribed.

upon temporary speculation, it has left the company free to pay what it earns on the stock without anxiety as to the question of interest payments. The company has 22,00 shares of Treasury stock pledged in a loan in London, but the loan does not fall due for a year, and if represents practically the only flouting indebtedness of the company. It was emphatically denied yesterday that the company had sold this pledged stock. Frequent offers to buy it have been made by the company's creditors, but the management is resolute in its policy to sell no stock until after stockholders have had an option to purchase it. The management expects the road to reap the benefit of its policy of selling no bonds at a sacrifice when the present period of depression is over.

## UNION PACIFIC'S CONDITION.

ANNUAL REPORT OF THE GOVERNMENT DIRECT

Washington, Sept. 28.—The Government directors of the Union Pacific Railway Company, in their annual report to the Secretary of the Interior say that from a recent personal examination made by one of the directors they are quabled to repeat with emphasis the statement of their predecessors last year as to the excellent physical condition of the system, both on the main line and its important branches. They are confident that at no time in the history of the company have its complete, the condition and character of its motive power so good, and the amount of its freight and 1883, both gross and net, have considerably decreased. Speaking generally, the causes of this de-crease are the same that have diminished the transactions and business enterprise of the entire

Railway proper for the year ended June 30, 1883, were as follows: Earnings, \$19,958,058, which is decrease for the year of \$1,852; expenses, \$11,521,act, which is an increase for the year of \$39.649.
The surplus for the year was therefore \$8,426.54. or \$401,602 less than the year before. The earnings for the entire system during the year covered by the report were \$44,26,70% and the expenses \$28, the report were \$14.20,70% and the expenses \$28, \$165,792. This is a decrease of \$105,697 in the earnings, and an increase of \$174,688 in the expenses.

The directors renew their recommendations made in other reports that the Government make a prompt fair and complete adjustment of its financial relations with the company.

# WISCONSIN CENTRAL'S PLANS.

Milwaukee, Sept. 29.-It is rumored in railway circles that a neat scheme is on foot, by which the Wisconsin Central will in a measure retaliate on the Northern Pacific. The report is that the Central will ask the court to terminate its lease of the Chicago and Northern Pacific, on the ground that it is too burdensome to carry, which is the ground upon which the court cancelled the Wisconsin Central lease for the Northern Pacific people. a matter of fact, as admitted by both the Central and Northern Pacific people, the great load they were carrying was this same Chicago and Northern Pacific. If the Central can show to the court that Pacific. If the Central can show to the court that the lease is, in the fashion of the day, "burdensome," it may be able to annul the same and thereby throw the property back upon the owners, the Northern Pacific people.

Some anxiety is felt as to what the attitude of the Wisconsin Central Railroad under the management of the receiver will be toward the Western Passenger Association. Steps were taken by it to-day which were regarded as preliminary to its withdrawal as a member. It gave notice of the withdrawal from the local association at St. Paul, but under the provisions of the general agreement it cannot be a member of one association unless it is a member of both. To make its withdrawal notice effective, therefore, it will have to withdraw from the general association. Should it do so and become a free lance in the territory, the total disintegration of the association could hardly be avoided. Just now revenue is the one thing needed by the Wisconsin Central, and it
